

## Subject index

- 5HT
  - Serotonin infusions inhibit sensory input from the dural vasculature, 638
- 5HT<sub>1B/1D</sub> receptor agonist
  - Efficacy and safety of rizatriptan wafer for the acute treatment of migraine, 525
  - Open-labeled long-term study of the efficacy, safety, and tolerability of subcutaneous sumatriptan in acute migraine treatment, 676
- 5HT<sub>1F</sub> receptor
  - Possible antimigraine mechanisms of action of the 5HT<sub>1F</sub> receptor agonist LY334370, 851
- acetylsalicylic acid
  - Acetylsalicylic acid in the treatment of headache, 545
- acupuncture
  - Acupuncture for recurrent headaches: a systematic review of randomized controlled trials, 779
- acute treatment
  - Acute treatment of migraine attacks: efficacy and safety of a nonsteroidal anti-inflammatory drug, diclofenac-potassium, in comparison to oral sumatriptan and placebo, 232
- adhesion molecules
  - T-cell subsets and expression of integrins in peripheral blood of patients with migraine, 713
- adolescence
  - Psychosocial factors in children and adolescents with migraine and tension-type headache: a controlled study and review of the literature, 32
- adverse events
  - Prospective large-scale study of the tolerability of subcutaneous sumatriptan injection for acute treatment of migraine, 223
- age
  - Human isolated coronary artery contraction to sumatriptan: a post hoc analysis, 651
- amyl nitrite
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
- ASA
  - Acetylsalicylic acid in the treatment of headache, 545
- aspirin
  - Acetylsalicylic acid in the treatment of headache, 545
- autonomic dysregulation
  - Migraine associated with panic attacks, 728
- autoscopy
  - Out-of-body experiences and related phenomena in migraine art, 886
- avitrriptan
  - A double-blind, randomized, crossover assessment of blood pressure following administration of avitrriptan, sumatriptan, or placebo to patients with mild to moderate hypertension, 95
- baclofen
  - Baclofen for prevention of migraine, 589
- basilar artery migraine
  - Headache in Ehlers-Danlos syndrome, 791
- blepharoclonus
  - Headache in Ehlers-Danlos syndrome, 791
- brainstem
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
- brain tumor
  - Headache in intracranial tumors, 787
- bromocriptine
  - Does the antimigraine action of flunarizine involve the dopaminergic system? A clinical-neuroendocrinological study, 27
- calcium
  - Nitric oxide pathway, Ca<sup>2+</sup>, and serotonin content in platelets from patients suffering from chronic daily headache, 810
- cenesthesias
  - Cenesthetic pain sensations illustrated by an artist suffering from migraine with typical aura, 598
- central effects
  - Auditory evoked potentials in the assessment of central nervous system effects of antimigraine drugs, 880
- cervical headache
  - Further clinical clarification of the muscle dysfunction in cervical headache, 179
- cervicogenic headache
  - Interobserver reliability of diagnostic criteria for cervicogenic headache, 817
- cGMP
  - Platelet nitric oxide metabolites in migraine, 218
- characteristics of the pain
  - Headache in intracranial tumors, 787
- childhood
  - Psychosocial factors in children and adolescents with migraine and tension-type headache: a controlled study and review of the literature, 32
  - Clinical neurophysiology in childhood headache, 137
- children
  - Headache in children in Dutch general practice, 147
- chronic daily headache analgesic abuse
  - Nitric oxide pathway, Ca<sup>2+</sup>, and serotonin content in platelets from patients suffering from chronic daily headache, 810
- chronic daily headache
  - Coping styles of headache sufferers, 165
- chronic pain
  - Headache medication-use among primary care headache patients in a health maintenance organization, 575
- chronic pain syndrome
  - Headache in Ehlers-Danlos syndrome, 791
- chronic tension-type headache
  - Familial occurrence of chronic tension-type headache, 207
- chronification
  - Coping styles of headache sufferers, 165
- cigarette smoking
  - Cluster headache and lifestyle: remarks on a population of 374 male patients, 88
- clinical application
  - Open-labeled long-term study of the efficacy, safety, and tolerability of subcutaneous sumatriptan in acute migraine treatment, 676

- clinical differences
  - Clinical characteristics of migraine in a population-based twin sample: similarities and differences between migraine with and without aura, 151
- clinical examination
  - Further clinical clarification of the muscle dysfunction in cervical headache, 179
- clinical trial
  - Acute treatment of migraine attacks: efficacy and safety of a nonsteroidal anti-inflammatory drug, diclofenac-potassium, in comparison to oral sumatriptan and placebo, 232
- clinical trials
  - Sumatriptan nasal spray in the acute treatment of migraine: a review of clinical studies, 769
- cluster headache
  - Cluster headache and lifestyle: remarks on a population of 374 male patients, 88
  - Cluster headache-like pain in multiple sclerosis, 732
- CO<sub>2</sub> cerebrovascular reactivity
  - Transcranial Doppler evaluation of cerebral hemodynamics in migraineurs during prophylactic treatment with flunarizine, 492
- cognitive functioning
  - Interictal and postictal cognitive changes in migraine, 557
- cognitive processing
  - Dynamic changes of cognitive habituation and serotonin metabolism during the migraine interval, 485
- cohort study
  - Migraine prescription density and recommendations. Results of the PCAOM Study, 511
- coping
  - Coping styles of headache sufferers, 165
- computer diary
  - High-density assessment of the IHS classification criteria for migraine without aura: a prospective study, 201
- construct validity
  - Validation of a migraine work and productivity loss questionnaire for use in migraine studies, 497
- consultation patterns
  - Migraine consultation patterns in primary care. Results from the PCAOM study 1994-96, 831
- cortical auditory evoked potential
  - Effects of zolmitriptan (Zomig®) on central serotonergic neurotransmission as assessed by active oddball auditory event-related potentials in volunteers without migraine, 100
- cortical excitability
  - Headache in Ehlers-Danlos syndrome, 791
- cortical information processing
  - Repeatability of the intensity dependence of cortical auditory evoked potentials in the assessment of cortical information processing, 873
- cortical spreading depression
  - Lamotrigine in the prophylactic treatment of migraine aura—a pilot study, 58
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
  - Effect of cortical spreading depression on activity of trigeminovascular sensory neurons, 631
- cost of illness
  - Incremental absenteeism due to headaches in migraine: results from the Mig-Access French national cohort, 503
- cyclic guanosine monophosphate
  - Nitric oxide pathway, Ca<sup>2+</sup>, and serotonin content in platelets from patients suffering from chronic daily headache, 810
- cyclic syndromes in childhood
  - Coincidence of familial hemiplegic migraine and hemicrania continua? A case report, 533
- defense and coping
  - Personality traits and psychological reactions to mental stress of female migraine patients, 566
- density
  - Migraine prescription density and recommendations. Results of the PCAOM Study, 511
- depression
  - Comorbidity of headache and depressive disorders, 211
- diagnosis
  - Primary headache care delivery by nonspecialists in Brazil, 520
- diclofenac-potassium
  - Acute treatment of migraine attacks: efficacy and safety of a nonsteroidal anti-inflammatory drug, diclofenac-potassium, in comparison to oral sumatriptan and placebo, 232
- disability
  - Reliability of the migraine disability assessment score in a population-based sample of headache sufferers, 107
- discriminant analysis
  - Steady-state visual-evoked potentials in headache: diagnostic value in migraine and tension-type headache patients, 23
- dorsal raphe nucleus
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
- drug-induced headache
  - Drug-induced headache: long-term results of stationary versus ambulatory withdrawal therapy, 44
- drug overuse
  - Comorbidity of headache and depressive disorders, 211
- drug surveillance
  - Migraine polypharmacy and the tolerability of sumatriptan: a large-scale, prospective study, 668
- DSM-III-R
  - Psychiatric comorbidity and psychosocial stress in patients with tension-type headache from headache centers in Italy, 159
- dura mater
  - Serotonin infusions inhibit sensory input from the dural vasculature, 638
- EEG
  - Steady-state visual-evoked potentials in headache: diagnostic value in migraine and tension-type headache patients, 23
  - Clinical neurophysiology in childhood headache, 137
- efficacy
  - Sumatriptan nasal spray in the acute treatment of migraine: a review of clinical studies, 769
- Ehlers-Danlos syndrome
  - Headache in Ehlers-Danlos syndrome, 791
- EMG
  - Clinical neurophysiology in childhood headache, 137

- endothelium
  - Human isolated coronary artery contraction to sumatriptan: a post hoc analysis, 651
- environment
  - Genetic and environmental influences on recurrent headaches in eight to nine-year-old twins, 866
- environmental agnosia
  - Loss of topographic memory and prosopagnosia during migraine aura, 841
- epidemiology
  - Reliability of the migraine disability assessment score in a population-based sample of headache sufferers, 107
  - Characteristics and prevalence of transient visual disturbances indicative of migraine visual aura, 479
- epilepsy
  - Migraine-related seizures in an epileptic population, 797
- event-related potentials
  - Dynamic changes of cognitive habituation and serotonin metabolism during the migraine interval, 485
- evoked potentials
  - Clinical neurophysiology in childhood headache, 137
- famous people
  - Great pains: famous people with headaches, 627
- familial hemiplegic migraine
  - Coincidence of familial hemiplegic migraine and hemicrania continua? A case report, 533
- familial occurrence
  - Familial occurrence of chronic tension-type headache, 207
- family history
  - Familial occurrence of chronic tension-type headache, 207
- flunarizine
  - Does the antimigraine action of flunarizine involve the dopaminergic system? A clinical-neuroendocrinological study, 27
  - Transcranial Doppler evaluation of cerebral hemodynamics in migraineurs during prophylactic treatment with flunarizine, 492
- fMRI
  - Perfusion weighted imaging during migraine: spontaneous visual aura and headache, 701
- GABA<sub>B</sub> agonist
  - Baclofen for prevention of migraine, 589
- general practice
  - Headache in children in Dutch general practice, 147
- genetics
  - Familial occurrence of chronic tension-type headache, 207
- Germany
  - Migraine prescription density and recommendations. Results of the PCAOM Study, 511
  - Migraine consultation patterns in primary care. Results from the PCAOM study 1994-96, 831
- glaucoma suspect
  - Migraine and ocular pain in "glaucoma suspect", 243
- glossopharyngeal neuralgia
  - Glossopharyngeal neuralgia referred from a pontine lesion, 115
- glyceryl trinitrate
  - Glyceryl trinitrate induces attacks of migraine without aura in sufferers of migraine with aura, 660
- Hamilton scale
  - Comorbidity of headache and depressive disorders, 211
- hazard ratio
  - Time-to event analysis, or who gets better sooner? An emerging concept in headache study methodology, 552
- headache
  - Steady-state visual-evoked potentials in headache: diagnostic value in migraine and tension-type headache patients, 23
  - Reliability of the migraine disability assessment score in a population-based sample of headache sufferers, 107
  - Clinical neurophysiology in childhood headache, 137
  - Headache in children in Dutch general practice, 147
  - Pressure pain threshold and pain tolerance in episodic tension-type headache do not depend on the presence of headache, 174
  - Comorbidity of headache and depressive disorders, 211
  - Acetylsalicylic acid in the treatment of headache, 545
  - Headache medication-use among primary care headache patients in a health maintenance organization, 575
  - Cenesthetic pain sensations illustrated by an artist suffering from migraine with typical aura, 598
  - Effect of cortical spreading depression on activity of trigeminovascular sensory neurons, 631
  - Glyceryl trinitrate induces attacks of migraine without aura in sufferers of migraine with aura, 660
  - Headache in schizophrenic patients: a controlled study, 725
  - Headache in intracranial tumors, 787
  - Headache in Ehlers-Danlos syndrome, 791
  - Possible predictive factors in the prognosis of migraine with aura, 824
  - Out-of-body experiences and related phenomena in migraine art, 886
- headache-related absenteeism
  - Incremental absenteeism due to headaches in migraine: results from the Mig-Access French national cohort, 503
- headaches
  - Great pains: famous people with headaches, 627
- head injury
  - Cluster headache and lifestyle: remarks on a population of 374 male patients, 8
- health services research
  - Headache medication-use among primary care headache patients in a health maintenance organization, 575
- hemicrania continua
  - Coincidence of familial hemiplegic migraine and hemicrania continua? A case report, 533
- hemodynamic changes
  - Perfusion weighted imaging during migraine: spontaneous visual aura and headache, 701
- heritability
  - Genetic and environmental influences on recurrent headaches in eight to nine-year-old twins, 866
- history
  - Great pains: famous people with headaches, 627
- hormone replacement therapy
  - Migraine, female hormones, and stroke, 75
- human coronary artery
  - Human isolated coronary artery contraction to sumatriptan: a post hoc analysis, 651

- humans
  - Effects of zolmitriptan (Zomig®) on central serotonergic neurotransmission as assessed by active oddball auditory event-related potentials in volunteers without migraine, 100
- hypertension
  - A double-blind, randomized, crossover assessment of blood pressure following administration of avitriptan, sumatriptan, or placebo to patients with mild to moderate hypertension, 95
- IHS classification
  - Psychiatric comorbidity and psychosocial stress in patients with tension-type headache from headache centers in Italy, 159
  - High-density assessment of the IHS classification criteria for migraine without aura: a prospective study, 201
- incremental cost
  - Incremental absenteeism due to headaches in migraine: results from the Mig-Access French national cohort, 503
- indirect cost
  - indirect costs of migraine in a managed care population, 50
- intensity dependence of auditory evoked cortical potentials
  - Repeatability of the intensity dependence of cortical auditory evoked potentials in the assessment of cortical information processing, 873
- intensity dependence of auditory evoked potentials
  - Auditory evoked potentials in the assessment of central nervous system effects of antimigraine drugs, 880
- interictal
  - Interictal and postictal cognitive changes in migraine, 557
- internal consistency
  - Validation of a migraine work and productivity loss questionnaire for use in migraine studies, 497
- interobserver reliability
  - Interobserver reliability of diagnostic criteria for cervicogenic headache, 817
- intra-cerebral hemorrhage
  - Migraine, female hormones, and stroke, 75
- intracranial hypotension
  - Headache in Ehlers-Danlos syndrome, 791
- investigation
  - Primary headache care delivery by nonspecialists in Brazil, 520
- isoprenaline
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
- kappa statistics
  - Interobserver reliability of diagnostic criteria for cervicogenic headache, 817
- Kiel pain inventory
  - Coping styles of headache sufferers, 165
- lamotrigine
  - Lamotrigine in the prophylactic treatment of migraine aura—a pilot study, 58
  - Effectiveness of lamotrigine in the prophylaxis of migraine with aura: an open pilot study, 64
- laser Doppler flowmetry
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
- LFA-1
  - T-cell subsets and expression of integrins in peripheral blood of patients with migraine, 713
- lifestyle
  - Cluster headache and lifestyle: remarks on a population of 374 male patients, 88
- locus coeruleus
  - Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592
- LY334370
  - Possible antimigraine mechanisms of action of the 5HT<sub>1F</sub> receptor agonist LY334370, 851
- lymphocyte subpopulations
  - T-cell subsets and expression of integrins in peripheral blood of patients with migraine, 713
- managed care
  - Indirect costs of migraine in a managed care population, 50
- medications
  - Headache medication-use among primary care headache patients in a health maintenance organization, 575
- MELAS
  - Search for mitochondrial DNA mutations in migraine subgroups, 20
- menstrual migraine
  - Sumatriptan is effective in the treatment of menstrual migraine: a review of prospective studies and retrospective analyses, 16
- mental stress
  - Personality traits and psychological reactions to mental stress of female migraine patients, 566
- MFV
  - Transcranial Doppler evaluation of cerebral hemodynamics in migraineurs during prophylactic treatment with flunarizine, 492
- middle meningeal artery
  - Effect of cortical spreading depression on activity of trigeminovascular sensory neurons, 631
- migraine
  - Sumatriptan is effective in the treatment of menstrual migraine: a review of prospective studies and retrospective analyses, 16
  - Search for mitochondrial DNA mutations in migraine subgroups, 20

- migraine without aura
- Clinical characteristics of migraine in a population-based twin sample: similarities and differences between migraine with and without aura, 151
  - High-density assessment of the IHS classification criteria for migraine without aura: a prospective study, 201
- mitochondria
- Search for mitochondrial DNA mutations in migraine subgroups, 20

## MK-462

Efficacy and safety of rizatriptan wafer for the acute treatment of migraine, 525

## mood

Personality traits and psychological reactions to mental stress of female migraine patients, 566

## MRI enhancement

Resolution of MRI abnormalities of the oculomotor nerve in childhood ophthalmoplegic migraine, 655

## mtDNA mutations

Search for mitochondrial DNA mutations in migraine subgroups, 20

## multiple sclerosis

Cluster headache-like pain in multiple sclerosis, 732

## muscle function

Further clinical clarification of the muscle dysfunction in cervical headache, 179

## nasal spray

Sumatriptan nasal spray in the acute treatment of migraine: a review of clinical studies, 769

## neuronal hyperexcitability

Effectiveness of lamotrigine in the prophylaxis of migraine with aura. An open pilot study, 64

## nitrate

Platelet nitric oxide metabolites in migraine, 218

## nitric oxide

Platelet nitric oxide metabolites in migraine, 218  
Glyceryl trinitrate induces attacks of migraine without aura in sufferers of migraine with aura, 660  
Nitric oxide pathway,  $\text{Ca}^{2+}$ , and serotonin content in platelets from patients suffering from chronic daily headache, 810

## nitrite

Platelet nitric oxide metabolites in migraine, 218

## NSAID

Acute treatment of migraine attacks: efficacy and safety of a nonsteroidal anti-inflammatory drug, diclofenac-potassium, in comparison to oral sumatriptan and placebo, 232

## occupation

Cluster headache and lifestyle: remarks on a population of 374 male patients, 88

## ocular hypertension

Migraine and ocular pain in "glaucoma suspect", 243

## ocular pain

Migraine and ocular pain in "glaucoma suspect", 243

## oculomotor cranial nerve

Resolution of MRI abnormalities of the oculomotor nerve in childhood ophthalmoplegic migraine, 655

## ophthalmoplegic migraine

Resolution of MRI abnormalities of the oculomotor nerve in childhood ophthalmoplegic migraine, 655

## oral contraceptives

Migraine, female hormones, and stroke, 75

## oral treatment

Acute treatment of migraine attacks: efficacy and safety of a nonsteroidal anti-inflammatory drug, diclofenac-potassium, in comparison to oral sumatriptan and placebo, 232

## out-of-body experience

Out-of-body experiences and related phenomena in migraine art, 886

## pain threshold

Pressure pain threshold and pain tolerance in episodic tension-type headache do not depend on the presence of headache, 174

## pain tolerance

Pressure pain threshold and pain tolerance in episodic tension-type headache do not depend on the presence of headache, 174

## panic attacks

Migraine associated with panic attacks, 72

## perfusion-weighted imaging

Perfusion weighted imaging during migraine: spontaneous visual aura and headache, 701

## personality

Personality and response to repeated visual stimulation in migraine and tension-type headaches, 718

## personality traits

Personality traits and psychological reactions to mental stress of female migraine patients, 566

## pharmacovigilance

Prospective large-scale study of the tolerability of subcutaneous sumatriptan injection for acute treatment of migraine, 223

## photoc driving

Steady-state visual-evoked potentials in headache: diagnostic value in migraine and tension-type headache patients, 23

## platelets

Platelet nitric oxide metabolites in migraine, 218  
Nitric oxide pathway,  $\text{Ca}^{2+}$ , and serotonin content in platelets from patients suffering from chronic daily headache, 810

## polypharmacy

Migraine polypharmacy and the tolerability of sumatriptan: a large-scale, prospective study, 668

## pontine lesion

Glossopharyngeal neuralgia referred from a pontine lesion, 115

## postictal

Interictal and postictal cognitive changes in migraine, 557  
power calculations

Auditory evoked potentials in the assessment of central nervous system effects of antimigraine drugs, 880

## pre- and postoperative study

Headache in intracranial tumors, 787

## prevalence

Migraine consultation patterns in primary care. Results from the PCAOM study 1994-96, 831

## primary care

Migraine prescription density and recommendations. Results of the PCAOM Study, 511

Migraine consultation patterns in primary care. Results from the PCAOM study 1994-96, 831

## primary headache care

Primary headache care delivery by nonspecialists in Brazil, 520

## prognosis

Possible predictive factors in the prognosis of migraine with aura, 824

## prophylaxis

Lamotrigine in the prophylactic treatment of migraine aura—a pilot study, 58

Baclofen for prevention of migraine, 589

- psychiatric comorbidity

## time-to-headache relief

Time-to event analysis, or who gets better sooner? An emerging concept in headache study methodology, 552

## tolerability

Sumatriptan nasal spray in the acute treatment of migraine: a review of clinical studies, 769

## tolfenamic acid

Tolfenamic acid decreases migraine recurrence when used with sumatriptan, 186

## treatment

Primary headache care delivery by nonspecialists in Brazil, 520

## trigeminal

Effect of cortical spreading depression on activity of trigeminovascular sensory neurons, 631

Serotonin infusions inhibit sensory input from the dural vasculature, 638

Possible antimigraine mechanisms of action of the 5HT<sub>1F</sub> receptor agonist LY334370, 851

## trigeminal evoked potentials

Cluster headache-like pain in multiple sclerosis, 732

## trigeminal neuralgia

Glossopharyngeal neuralgia referred from a pontine lesion, 115

## trigger factors

Possible predictive factors in the prognosis of migraine with aura, 824

## triptans

Auditory evoked potentials in the assessment of central nervous system effects of antimigraine drugs, 880

## twins

Clinical characteristics of migraine in a population-based twin sample: similarities and differences between migraine with and without aura, 151

Genetic and environmental influences on recurrent headaches in eight to nine-year-old twins, 866

## vasodilatation

Vasodilator agents and supracollicular transection fail to inhibit cortical spreading depression in the cat, 592

## vasospasm

Nonaneurysmal thunderclap headache with diffuse, multifocal, segmental, and reversible vasospasm, 118

## visual evoked potential

Personality and response to repeated visual stimulation in migraine and tension-type headaches, 718

## visual field

Characteristics and prevalence of transient visual disturbances indicative of migraine visual aura, 479

## VLA-4

T-cell subsets and expression of integrins in peripheral blood of patients with migraine, 713

## withdrawal therapy

Drug-induced headache: long-term results of stationary versus ambulatory withdrawal therapy, 44

## zolmitriptan

Effects of zolmitriptan (Zomig<sup>®</sup>) on central serotonergic neurotransmission as assessed by active oddball auditory event-related potentials in volunteers without migraine, 100
